

LifeGroup Study Sheet

September 14th, 2025 – What is Artificial Intelligence?

This guide is designed to give helpful hints in preparing for your group discussion.

Quick Review

Look back from your sermon notes – Was there anything that particularly challenged you from this sermon? Anything you didn't understand, agree with or connect with?

Introduction

Have you ever used AI to help you with job or schoolwork? What comes to your mind when you hear the phrase Artificial Intelligence?

Digging In

Question 1: Read 2 Chronicles 26:14-16. The question was asked, is AI evil or good? Through this passage we see King Uzziah have men invent machines to be utilized in war. The question is not focused on just are "tools" or "inventions" inherently immoral, but more so in HOW they are used! In this story Uzziah utilized new inventions to protect and defend Judah and Jerusalem! It was used for good. But we also see Uzziah grow proud, and it led to his destruction. How have you seen certain tools, inventions or developments in technology used for evil purposes? How about for good purposes?

Question 2: Read Revelation 13:11-15. Pastor Jeff asked the question, could AI be used in the end times? In the passage of Revelation 13, we see that the second beast that comes in the end times has the ability to deceive, cause worship, miracles, and powerful signs to turn people astray. The Bible tells us that the False Prophet (second beast) will resemble a lamb (godly character) but use lying words and information to deceive people to worship the Anti-christ (first beast). How does this caution you with how we should discern all information and truth?

Read John 16:13 and 1 Corinthians 2:15-16

How do these verses help give us comfort in knowing God's truth but also to utilize the resources of Scripture and the Holy Spirit to guide us?

Question 3: Read Colossians 2:8, Genesis 1:26, Proverbs 3:5-6. The question we should ask ourselves in this digital age is, "what dangers should Christ-followers be aware of when it comes to AI?" Pastor Jeff talked about 3 principles we should remind ourselves of when it comes to Artificial Intelligence. What are things that God is teaching you about these 3 principles?

AI can deceive – (Colossians 2:8)

AI can dehumanize – (Genesis 1:26)

AI can cause dependence – (Proverbs 3:5-6)

Question 4: How should we as Christ-followers Biblically respond to AI? Ask yourself these 4 questions for the Lord to apply to your life as it relates to this topic!

God is still on the **throne** (Psalm 8)

God's Word is still absolute **truth** (John 17:17)

God's Son is still **trustworthy** (Isa. 40:31)

God's Spirit is still **transforming** us (2 Cor. 3:18)

Praise / Prayer Requests

Pray for your group with these things in mind:

Adoration – How can I praise God for what this teaches me?

Confession – What sin can I confess because of what this teaches me?

Thanksgiving – How can I thank God for what Jesus has done?

Supplication – What do I need to ask of God in order to grow in light of this?
